

TECHNICAL DATA SHEET

Gel Hand Sanitiser- SA65HG

No#: 192 rev1
Date: 18/05/20

Description

Royal's Gel Hand Sanitiser is a waterless disinfectant alcohol-based handrub which will rapidly and effectively deactivate microorganisms, killing up to 99,9% of bacterial growth. It is fast drying and with just a few squirts of Royal Gel Hand Sanitiser offers an effective bacteria free skin without causing dryness and no stickiness.

Uses

Used to sterilize, Royal's Gel Hand Sanitiser is an excellent disinfectant providing outstanding germicidal action also working as an antiseptic for your hands.

Application

Apply prior to and after any contact has been made with suspected contaminated surfaces and areas. Squirt enough product on hands to cover both hands, gently rub hands together until hands feel dry. This could take around 10 - 30 seconds. Do not rinse or wipe off the gel hand sanitiser before its allowed to dry, this is to ensure time to eliminate the growth of the bacterial spores.

Key Data

Alcohol% v/v	65 - 70
Viscosity @ 23°C	5000 – 12 000 cPs

Pack Sizes

1000lt. / 20lt. / 5lt.
500ml./ 250ml.

Storage Stability

24 months when stored in the original sealed containers at a temperature in the range of 10 - 25°C.
